Dear Hiring Manager's,

I am excited to write this letter about the join opening as a Front-end Webdeveloper at Property Finder. I chanced upon your company's opening at LinkedIn and upon reading the required qualities, I certainly believe I meet those requisite skills.

I have extensive knowledge of HTML, CSS, Javascript, React, Node and Mongo db. Combined with my communication and problem solving skills, I think I would be an excellent candidate for the web Developer role at Property Finder. With my skill and ability to adopt new technologies I will never upset you. I have always been passionate about web development. I am constantly seeking out new technologies and staying up-to-date on trends in the industry. I would be so thrilled to join the team as a Web Developer.

I have attached my resume along with the cover letter which contains my educational and professional qualifications. I will give a call to your office the next week to know more about the job profile. You can also reach out to me at the contact details mentioned in the resume.

Warm regards,

MD WAHID
